Research activity

*** I published many papers in Scopus and Clarivate as well as many international and local research.**

*** I authored a book entitled "Chitosan and its water soluble derivatives". And was published in 2018 at Lambert Academic Publishing in Germany. This book has also been translated and published in all languages to all countries of the world such as United States of America, France, Italy, England and others.**

Awards and certificates of appreciation

*** I received many certificates of appreciation, letters of thanks from the Dean of College of Agriculture and the President of Basrah University, and many letters of thanks from the Minister of Higher Education and Scientific Research.**

*** I participated in dozens of courses, scientific workshops, scientific symposiums and scientific conferences inside and outside Iraq, and published many research papers within them and I gave lectures and seminars.**

*** I conducted microbial and physiochemical tests for samples of dates belonging to the consulting office in Basrah.**

*** I analyzed samples of many postgraduate students for our college and the rest of the colleges within the equipment available in the food processing laboratory.**
